AFFIDAVIT OF APPLICANT

1. Minimum charge is based off 5,000 gallon usage for a 3" meter.
2. Meter must be blocked up to prevent stress on the threads.
3. Meter is to be removed from the hydrant when not in use.
4. Meter must be available for readings upon request.
5. Hydrant must be opened and closed slowly.
6. Contractor is responsible for any damage to meter and/or hydrant being used.
7. Meter must be turned in upon completion of the project.
8. Violation of rules may result in repossession of meter.
